

# University of Iowa Football Media Conference

Saturday, October 16, 2021

Iowa City, Iowa, USA

## Coach Kirk Ferentz Postgame Press Conference

Purdue - 24, Iowa - 7

COACH FERENTZ: A really disappointing and difficult day for our football team and certainly our fans too. They were great. Appreciate them being there.

Every week and basically just program-wise our goal is to try to improve and come out victorious in the football game. So certainly didn't do that.

And now we have a week here to figure out some answers and see what we can do to improve. That's what the next couple of weeks will be for.

Purdue played a great football game. Credit to them. Basically they outdid us in every category. And certainly David Bell was outstanding. We knew that coming in. A tremendous football player and a lot of respect for him.

He and Karlaftis impacted the game an awful lot. And we knew it was going to be a tough contest. Bottom line is we didn't get it done. They moved the ball well. The last time out against Minnesota, looked very similar to that. Had a hard time getting off the field and we couldn't keep pace offensively either. Credit to our opponent. They did a great job.

For our football team, it's the first time we've had to deal with a loss in a while. We'll get a lesson in that. The biggest thing right now is we choose to move forward. That's what I shared with the team a few minutes ago.

We have some time to stew and sit on it. But there's nothing we can do about it. But we have to move on, see about moving forward and taking on the second half of the five-game schedule. And that's where we'll go now.

### **Q. What's different about David Bell compared to previous really high-caliber receivers?**

COACH FERENTZ: I don't know if I can articulate it. It seems like we've seen somebody really good week in, week out. And that's the case. Have a lot of respect for

their receiver corps, the whole corps. Wright is a dangerous player. Anthrop is a good player.

They throw it well. Pressure them, they get the ball off quickly. But he's a very unique player and productive. I'm sure I've been around guys that got 200-plus yards receiving, but I can't remember. You guys could probably cite it for me.

### **Q. You've already said the first seven games, last five games, in the middle, when you look back on the previous games, how would you evaluate how the team has improved or where you need to improve in the next five games?**

COACH FERENTZ: I told them we've done a lot of positive things since January. So take that first seven games for what it is. It would be great to be sitting here 7-0, but that's not the reality and shouldn't be. We got off late today.

So I think we've done a lot of good things. We do better when we play as a team and can create some energy, and we never got that going today. Outside of our return game, I think and the kicking game was good. Outside of that it's really hard to single anything out that looked really good.

But we have some strengths on this football team. And we're seven games into it. So we're young. I think we're older now and we paid for a little bit of that today.

But hopefully we'll continue to grow and then just put our sights on the next five.

### **Q. The last time you had a really big win against a top 5 team, came back the next week and struggled in that performance. How hard is it to just back up an emotional win with another college game in your eyes?**

COACH FERENTZ: It is hard. That's why the teams don't go undefeated too often. That's everybody. Alabama went down. I'm not comparing us to Alabama by any stretch. But that's a tough thing, especially about conference football play. I think that factors in as well.

So we did it and we won 12 straight in '15 and whatever it was, 21, 22. So it's tough to do. But you still want to do it. Doesn't ease the pain at all. Doesn't make you feel any better.

But one thing about losing, and, boy, sitting here I was actually thinking at the end of the game about going over to Illinois, I don't know what year, '82 or '83, it was 33-0 with a good football team. Those things happen.

They never taste good or feel good but you have to get back on your feet, go back to work.

**Q. Target on your back, No. 2 in the country. Huge win last week over Penn State. Everybody's gunning for you.**

COACH FERENTZ: That's part of it I'm sure. We haven't been up there that often. But it's part of it. And it's conference play. Everybody wants to beat each other. That's what makes it tough to compete in the conference. It's a good thing. That's what conference play should be. That's what conference should be, pretty good challenge, six weeks now. Off to regroup.

**Q. The running game, there hasn't been a lot of consistency, few big plays here and there; but as far as getting the push you want and need, you haven't quite gotten it. And today was kind of the same way. What's stalling right now? Is it a combination of things?**

COACH FERENTZ: I'm not sure I see that totally. I haven't seen the film from today, but we had some pretty clean runs on them. Six, eight, 10-yard plays. I feel like we had some really good clean runs last two weeks and showed improvement.

I'll see the tape from this game. If you look at the bottom line, sneaks, short yard situations, those kinds of things. But I think we're growing there. But we obviously weren't cohesive enough offensively couldn't keep pace especially the second half. When you watch a clock wind down a little bit puts pressure on the fourth quarter, you can throw it out statistically, at least but I think we're making some strides in the running game, which I'm encouraged about, we'll see.

**Q. Obviously a setback today, but how do you evaluate Spencer for the first seven weeks?**

COACH FERENTZ: I think he's done a good job for two seasons, really. I think he's done a lot of good things. Today was a tough day for all of us and our protection wasn't great. Made it tougher on him. Whatever interception number we ended up with, you can't just discount -- I'm not suggesting that. But especially the last couple. It's situational, part of that is situational. Still show up in the stat column at the end of the year; I get it. We

need to protect him a little bit better, keep working here.

**Q. How is Hankins and the process of getting him back out there?**

COACH FERENTZ: He came back in. They checked him. Whatever, I think he fell, that's what it looked like to me. Expect him to be okay. We'll see how it is tomorrow, how sore he is.

**Q. What's the status on Lachey?**

COACH FERENTZ: And Cody (Ince), we thought would be able to make it. Couldn't answer the bell. As the week went on there, leveled off. Lachey, somebody fell on him Monday or Tuesday, Wednesday, whatever it was. But I thought he might have a chance. Hopefully we'll get him back after the break here. And Deontae Craig, somebody fell on him. I know that was Wednesday. We lost a couple of guys this week during the week.

**Q. Spencer said that last year kind of bothered him, he wanted to come out and prove himself. Obviously you guys walk away with the loss. What did you say to him, like this is the first game, he's won his last 12, how do you make sure the loss --**

COACH FERENTZ: It's that way for the whole football team. It's a tough locker room in there. It should be. Everyone is invested in the game. Goes back to January, not that everybody was here then. But that's with how it's supposed to feel when you go down. Not fun. No way to make it go away. I'm more experienced than anybody in the locker room and I haven't found a way to make it feel better. Other than time. Usually time and going back to work helps you. One thing with the bye, we just can't flip our sights to the next opponent Monday morning. We'll have to deal with that.

There's a lot of good things in front of us. We have a five-game schedule. We'll regroup. We need rest right now, certainly with those injuries, get some guys recharged and come out a week from now hopefully ready to go.

**Q. Was taking the knee at halftime, was that your call?**

COACH FERENTZ: What was it like, like nine seconds, not even, three. What are you going to do? Get somebody hurt. We did go for it the play before that, right? Tried to get the ball down the field.

That was not the game turner that's for sure. I don't think he could throw it that far. That would be tough.

**Q. What do you have to do with this offense between**

**now and Wisconsin to avoid another offensive showing like this?**

COACH FERENTZ: I'd say it's a team loss, Mike. I didn't see much out there other than our return game that looked real good. Just like when we're winning, one thing feeds off the other. Things complement each other. We couldn't get off the field today.

Credit to Purdue, they had a good attack. That one receiver. Like I said, he had as good as a day I could remember us facing. I'm not sure I remember anybody rotating quarterbacks quite like they did. No. 12, also mixed in, but rotating both guys; they played really well, both of them.

**Q. Getting off the field on third down, was there something that Purdue was doing to get the defense off the field? What was going on?**

COACH FERENTZ: We couldn't get pressure on the quarterback. Start there. Then when we did bring pressure, he did a pretty good job for the most part getting the ball out, finding somebody who is open enough to convert the first downs. No matter what direction we leaned, they seemed to have an answer. And that's good football on their part.

**Q. How do you get your guys to not fester in the loss but utilize the loss as motivation going forward?**

COACH FERENTZ: This is a game for mentally tough people. If you're not mentally tough, you'll dwell on it and let it fester.

Anytime you don't have success, everybody's got an opinion about it. So if you're not careful you start second-guessing yourself and doubting this or that and whatever. The whole trick is to get your eyes back on what you're trying to do and work to improve. Not worry about what went wrong. There was plenty of that, in large part to our opponent's credit.

But as I said, we've done a lot of good things in six weeks prior to this game and what we need to do is make sure we get back playing the way we want to play and how we need to play. And there's no easy games up front. That's something to make sure our players understand. I think they do.

Conference football is tough. If it turns out not to be, that's a nice surprise. But that's just the way it is.

**Q. Purdue always seems to have a good strategy for your defense. Different than most teams that you go**

**against? Why are they so effective and have been and shown it in the last four to five years, but more and more...**

COACH FERENTZ: As I said Tuesday, that's Coach Brohm's expertise and background. He's done a nice job offensively everywhere he's been. And I just said we couldn't get off the field today, basically.

They drove it and then they got the points they needed to get. It's not the first time they have done that, but we just didn't have answers. A credit to them. They blocked well and threw and catch and ran it efficiently enough to be successful.

Iowa Player Quotes**

**QB Spencer Petras**

*On the loss...*

"It's no fun losing but you know there are going to be good days and some bad days. But credit to Purdue they played really well and we didn't do enough to win as a team, It's definitely not fun but it's a part of the game."

*On preparation this week...*

"We knew Purdue was a good football team. We prepped hard for this game it just didn't go our way today. They played really well and made it tough on us and we didn't execute well enough."

*On the bye this upcoming week...*

"The 24 hour rule usually applies to the one week turnaround. I am not sure on our schedule but whenever we get back to work, we are moving on. The past is behind you. The future doesn't exist its all about the present moment and whenever we do get back to work, we need to focus on improvement and start prepping for Wisconsin and focus on beating them."

*On the possession after the touchback/fumble...*

"I think their defense was good, they did a good job. I need to do a better job of getting the ball out of my hand but that's it, that was a big turning point if we score there, we could've been at 10 or 14 points. There will be plenty of evidence on the tapes and we will just have to see how we can do better."

*On their defensive player Karlaftis...*

"He's a great player, there's a reason he's projected to be a first round pick. He's a really good football player and I wish him the best of luck."

**OL Tyler Linderbaum**

*Prefer to have this happen before the Bye or prefer to go out there next Saturday?*

"I prefer not to lose, but going into bye week there is a lot to look at and learn from. It's been a rough seven-game stretch from a body standpoint, so letting our body rest is good. If we had a game next week we would be ready to go. If we have a game in two weeks we will still be ready to go."

*How difficult was it emotionally coming into this game after last week?*

"I thought we did a good job from moving on from the game last week. Anytime you have a big win that's your focus point, but we are playing Big Ten football, so everyone we face is going to be good. It just came down to lack of execution and they were more ready than us."

*Did you feel like there was a target on your back being #2 in the country?*

"I think (every) team wants to beat a highly ranked team, but we are going to have match that energy every week, It's not going to be easy from here on out. I will always feel like there is a target on our back. We are going to have to be ready for that, and I am excited. There is going to be a lot to learn from the tape."

## **LB Seth Benson**

*How difficult was it to know what David Bell was capable of doing and then seeing him come out and do that?*

"Coming in we knew he was a really good player and he showed that tonight. He played really well and is just a really good player."

*What will you take going into the bye week?*

"Cleaning up the little things and make the plays that need to be made. I think we are going to look back on it and see that one play here or there would have changed the game dramatically. We talk about it all the time that there will be four plays out there that will change the game and we just don't know when they're going to come up, but we've got to be ready when they come."

*Was it difficult when Purdue was cycling through 3 quarterbacks so frequently?*

"Coming in we knew that they had three good quarterbacks and what their tendencies were. It just changes up the call and we've got to be better in our fits, in jamming receivers, and getting into passing lanes."

*Do you feel like you need the bye week and it's coming at a good time?*

"I think any time we can regroup, refresh and improve on us we've got to focus on ourselves, and individually we've got to see what we can do better to push this thing forward and help out the team."

*What was the challenge with getting off the field on third down?*

"All credit to them, they executed really well today. They came out ready to roll and like you said, we've got to get off the field on third downs. There were obviously other plays there that need to be made like I said earlier, we're going to look back and see some of these plays that I think would've changed the game if we were able to get off the field, even first and second downs. Bleeding yardage or deep balls, I know us as linebackers are going to look back on them."

*How were they able to control the tempo through the passing game?*

"All credit goes to them. They had really good receivers and their quarterback was throwing the ball really well, they just kept rolling. If we get off the field on third downs, if we stuff them better on first and second down, then they'd be behind the sticks, but they were in third and manageable every time. We've just got to push them back and get them in uncomfortable down and distances to make sure they're doing stuff that they usually don't want to."
